

# **Sprint 3 Plan - CMPS 115**

## **OnCareer**

Sprint Completion Date: 3/13/2018

Revision #1, 2/23/2018

**Members: Steven Suh, Drew Caltagirone, Jeff Yang, Kyle Batross, Swapnil Patil, Tony Dang**

**Goal:** Add the analytics function, improve navigation, and finalize entire product for release.

**User Story 1:** Analytics - As a user, I want to be provided analytics so that I can learn more about the companies I am applying to. (21 Points)

1. Task 1 - Build the front-end of analytics using D3.js/Recharts (15 hours, 8 Points)
2. Task 2 - Build front-end functions to utilize data from back-end (6 hours, 3 Points)

**User Story 2:** UI/Navigation - As a developer, I want to improve the UI and navigation so that the users have a better navigation experience. (13 Points)

1. Task 1 - Improve UI and match mockup (6 hours, 3 Points)
2. Task 2 - Add smooth transitions between pages (6 hours, 3 Points)

**User Story 3:** Testing and Finalization - As a developer, I want to finish and test the finalized product so that I can ensure the product is ready to ship. (13 Points)

1. Task 1 - Test Dashboard (9 hours, 5 Points)
2. Task 2 - Test Calendar (9 hours, 5 Points)
3. Task 3 - Test Analytics (9 hours, 5 Points)

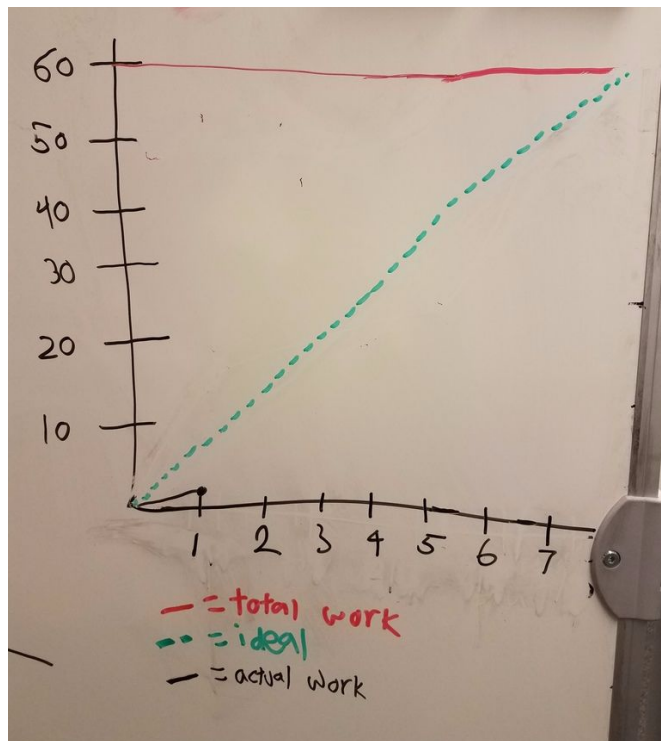

### **Team roles:**
